

## Chairman's Message

It is a matter of pride to pen down the message for the annual school magazine of Mount Litera Zee School. The name of the magazine UDAAN practically relates to my vision for the school and society. My heart fills with immense pleasure as I perceive the progress being made at Mount Litera Zee School Motihari.

The idea came into my mind in the year 2009 and the seeds of this idea sown in 2014 have quickly come to fruition, and the school is growing into strong sapling. It is the endeavour of the Zee Learn Group to make the academic like, smooth journey full of joy and discovery.

The school magazine is a platform for the students to express their creative pursuit which develops in them originality of thought and perception. The contents of the magazine reflect the wonderful creativity of thoughts and imagination of our Mountliterians.

I extend my warm wishes to the Principal, Staff and Students of Mount Litera Zee School Motihari to continue this journey on the road of excellence and extend my warm affection for making my dream true.

“May the sapling grow into a sturdy tree and spread its branches”

## Regional School Director's Message

I am delighted that Mount Litera Zee School (MLZS), Motihari, is bringing out its first annual magazine, named “Udaan” during the Parents' Day celebration on 15 February 2020. I convey my sincere congratulations to the entire school fraternity for this initiative and thank everyone for their valuable contributions to make this magazine possible.

As a part of Essel Group and Zee Learn network, MLZS Motihari has been striving excellently and relentlessly for all round growth and development of its students since its inception in 2018. There is continuous progress in the overall infrastructure, various facilities, faculty enrichment and students' exposure to a global system of pedagogical experiences.

I have been fortunate to be a part of this school from the very beginning and have always been a great support in its different academic endeavour. I've seen its commitment to academic excellence, its dynamic student body, an incredibly committed faculty, and a loving community where the students and families are proud and supportive of one another.

MLZS coeducational environment reflects the world in which our students will one day live and work. Beyond mastering academic disciplines, students are taught to respect all people and things, to be honest with themselves and others, put forth maximum effort, and seek ways to help their communities.

I appreciate Chairman Mr. Sanjay Gupta and his family for extending their support in providing the finest opportunity of school education to the citizen of Motihari. I thank the Principal, teachers and staff for putting in their dedication and hard work in the schooling of their students. I also express my sincere gratitude to the parents, well wishers and entire community for believing in Zee Learn and its educational system.

माउंट लिटेरा स्कूल ने सम्पूर्ण देश में एक श्रृंखला खड़ी की है और मोतिहारी जैसे जगह पर इस श्रृंखला को बरकरार रखने में चेयरमैन श्री संजय कुमार गुप्ता का काफी योगदान है। समाज निर्माण में कुशल मानव संसाधनों की फैक्टरी विद्यालय ही होती है। हमें उम्मीद ही नहीं बल्कि यकीन है कि माउंट लिटेरा स्कूल इस पूरे मोतिहारी क्षेत्र में प्रभावी कार्यशाला है जो कि समाज निर्माण में काफी योगदान दे रहा है। बच्चों की पहली पाठशाला माँ है और दूसरी पाठशाला विद्यालय है। विद्यालय में एक व्यवस्थित रूप से शिक्षा का आंकलन होता है और उस नजर से माउंट लिटेरा स्कूल मोतिहारी एक सर्वगुण सम्पन्न विद्यालय है। मैं विद्यालय से जुड़े सभी शिक्षक, शिक्षणोत्तर कर्मचारियों एवं छात्र-छात्राओं के उज्ज्वल भविष्य की कामना करता हूँ।

हम सभी जानते हैं कि शिक्षा किसी भी राष्ट्र का मजबूत स्तम्भ होता है जिसपर उस देश के उज्ज्वल भविष्य की नींव रखी जाती है। बेहतर शिक्षा मावन जीवन में आत्मविश्वास विकसित करने के साथ-साथ व्यक्तित्व निर्माण का कार्य करती है। इस उद्देश्य से देश के लगभग हर छोटे-बड़े शहरों में माउंट लिटेरा स्कूल ने एक श्रृंखला बनायी है तथा मोतिहारी जैसे जगह पर इस श्रृंखला को स्थापित करने में इसके चेयरमैन श्री संजय कुमार गुप्ता का योगदान काफी सराहनीय है। मुझे आशा ही नहीं बल्कि पूर्ण विश्वास है कि माउंट लिटेरा स्कूल मोतिहारी एवं इसके आस-पास के ग्रामीण इलाके के बच्चों में शिक्षा का अलख जगा रही है। जीवन में विद्यालय का महत्व एवं प्रभाव दीर्घगामी होता है जहां एक बच्चा पारिवारिक परिवेश से बाहर निकल स्वयं एवं समाज के उत्थान की ओर अपना पहला कदम बढ़ाता है। विद्यालय में प्राप्त आचरण छात्रों के लिए उनमें जीवन भर उत्साह एवं ऊर्जा का संचरण करते रहते हैं। इस दृष्टि से माउंट लिटेरा स्कूल, मोतिहारी एक सर्वगुण सम्पन्न विद्यालय है।

मुझे यह जानकर अत्यंत प्रसन्नता हुई कि माउंट लिटेरा स्कूल, मोतिहारी द्वारा "उड़ान" नामक स्मारिका का प्रकाशन किया जा रहा है जो कि सराहनीय कदम है। मैं विद्यालय से जुड़े सभी शिक्षकगण, शिक्षणोत्तर कर्मचारियों एवं छात्र-छात्राओं के उज्ज्वल भविष्य की कामना करती हूँ।

## Principal's Message

*"The mind is not a vessel to be filled, but a fire to be kindled",* said Plutarch. 'UDAAN' our school magazine kindles the imagination of our young learners. Cradled in the lap of 21<sup>st</sup> century learning skill on the one hand and pedagogical edifice on the other, making 'Udaan' from serious thinking to playful inventiveness, thousands of students are brimming with a zeal for life empowering themselves with multiple intelligence skills and fathomless creativity.

Our philosophy of education has always been meeting the needs of the individual child. Children acquire skills and knowledge easily if we can make the surrounding stimulating and purposeful. In the 21<sup>st</sup> century the Digital Revolution affects us all. Quite simply, it is changing everything. In such a surrounding when work and effort is valued, the child's self-esteem is brightened, and from this results self-motivation. We try to understand and work with each child, and we firmly believe that it is our responsibility to enable the child in our care to develop as a whole.

If innovation and novel ideas are a key to bright future, we can surely remain assured of our place under pedagogic sun. We put forward a distinctive blend of offerings in the areas of knowledge and enterprise in the form of encouraging students for debated elocution and quiz contests as well as organizing and taking part in various cultural events. We also have an optional extra-curricular activity programme where multifarious discipline like music, dance, basketball, swimming etc are taught under the careful guidance of good coaches and teachers.

I congratulate the Editorial Board on its tireless efforts in bringing out this publication of the school magazine "UDAAN". I also extend my sincere thanks to all the personalities who have shared their blessings through this magazine and to them who have enhanced its perfection and beautification through their articles, short stories, poems, jokes, comics etc. I heartily thank to all my parents for keeping trust on us

Today as we march towards the second year our Annual Parent's Day, we pledge to work for every child and in the process, open new vistas in the area of education.

Happy Reading!

The world is changing fast. Man is adapting with the changes and creating new social values.

The dreams to make our students organized and well equipped with every possible quality, so that they head forward proudly to pursue their dreams and always remember they were part of Mount Litera Zee School Motihari. Society is getting restructured actualized to meet global, economical and cultural necessities of the newly born world citizens. Education system is a vital need for human survival. It is difficult for a person to sustain his/her life without proper education.

Education doesn't only mean to attain any degree from an institution, but it means to acquire knowledge and skill so that one may lead a comfortable life. Education system of our country should act as a bridge between an individual and the society around them. Education is to transfer the systematically truncated social outcome of individual's experiences and experiments to the students.

The pages of UDAAN our school magazine 2020 show a relentless work of our teachers and students. UDAAN is coming out as rejuvenation and intellectual ascent of the teachers and students. The best part is that, our precious ones have started realizing that "Indiscipline never pays", "Hard work always succeeds" and "Justice always triumphs". They have learnt to get involved in manifold activities and strive for their completion, maintaining the standard of their performance along with the academics, curricular and co-curricular activities.

नैतिक शिक्षा वह प्रक्रिया है जिसके माध्यम से हम दूसरों में नैतिक मूल्यों का संचार कर सकते हैं। यह कार्य घर, विद्यालय, मंदिर व सामाजिक स्थानों पर कर सकते हैं। व्यक्तियों के समूह को ही समाज कहते हैं। जैसे व्यक्ति होंगे वैसा ही समाज बनेगा। किसी देश, राज्य व शहर का उत्थान या पतन इस बात पर निर्भर करता है कि इसके नागरिक किस स्तर के हैं। यह स्तर वहां की शिक्षा-पद्धति पर भी निर्भर करता है। व्यक्ति के निर्माण और समाज के उत्थान में शिक्षा का अत्यधिक महत्वपूर्ण योगदान होता है। प्राचीन काल की भारतीय गरिमा ऋषियों द्वारा संचालित गुरुकुल पद्धति के कारण ही ऊंची उठ सकी थी। व्यक्ति का बौद्धिक और चारित्रिक निर्माण शिक्षा प्रणाली पर निर्भर करता है। आज ऐसी शिक्षा की आवश्यकता है, जो पूरे समाज और देश में नैतिकता उत्पन्न कर सके। यह नैतिकता नैतिक शिक्षा के द्वारा ही उत्पन्न की जा सकती है। हम कह सकते हैं कि नैतिकता वह गुण है, और नैतिक शिक्षा वह शिक्षा है, जो कि समाज के प्रत्येक व्यक्ति संपूर्ण समाज तथा देश का हित कर करती है। धर्म और नैतिकता मनुष्य की आधारभूत आवश्यकता है। बिना उनके उसे मनुष्य नहीं बनाया जा सकता, अतः इनकी शिक्षा की व्यवस्था अनिवार्य रूप से होनी चाहिए। बच्चों को सर्वप्रथम नैतिक शिक्षा के साथ गुणवत्तापूर्ण शिक्षा उपलब्ध कराना होगा, तभी समाज का समुचित विकास संभव है।

## Message of M.S. College Principal

Children are the future of tomorrow. Children with smiling and cheering faces give the same reflection in the development and progress of the country. Dr A P J Abdul kalam had always in their vision of high dream for the children to fulfil in future. Without the high innovative quality idea research of the best quality cannot be possible. Nights become to see dreams and days come to fulfil it. Our children are the beautiful assets neither liabilities nor burden for us. We should always try to encourage them to march forward to achieve their goal.

In my opinion, only textual performance should not be the scale to judge the students' abilities. Every child is special, they may have another type of qualities apart the textual abilities, we are needed to recognize their ability. It's our duty is to give least text book pressures on our students, so that they don't think to commit suicide by the increasing textual pressures.

Lastly, I would like to appreciate Mr Sanjay Kumar Gupta Chairman and Principal Mr. Arnab Mukherjee of Mount Litera Zee School, Motihari for their high thinking and the best performance in the teaching field.

With the best wishes

"A dream doesn't become reality through magic; it takes sweat, determination and hard work"

It gives us immense joy and satisfaction to finally introduce our school magazine "UDAAN". A lot of effort has been taken for making "UDAAN" successful. We hope you will enjoy making udaan with us. The best thing about the magazine is that it represents the creative side of students to a fair degree something that we think we all need to reconnect with. This time we have made an attempt to bring out the talent concealed within our students. "Great Things Begins with Small Action"

In life, we often plan things that we wish to do in our future. We do the same regarding our carrier. We set our aim and deduce a plot to reach our goal. We plan out the education we are supposed to take to reach our goal, to become what we aspire to. But while planning and trying to create this map, we tend to underestimate and often times neglect the underlying factors and problems that we might face in our journey and even after we have reached our destination as well in form of UDAAN. I would like to extend my gratitude to the people from different fields for giving their precious time and sharing their experiences in "UDAAN". "Success tastes sweeter if you have experienced the bitterness of failure too".

## Chief Editor's Message

Dear readers, you have in your hand UDAAN -The Flight, MLZS Motihari's very first official magazine

Udaan means flight in English and UDAAN in this context is 'Ude Mount Litera Zee School ka har Baccha.'

Let every individual student of the school fly.

It gives us immense joy and satisfaction to finally re-introduce our very own school magazine "UDAAN". A lot of effort has gone into the making of this issue. We hope you enjoy reading the magazine. The best thing about this issue is that it represents the creative side of MLZS students to a fair degree-something that we think we all need to reconnect with. Amidst the busy schedule of a 2 periodic term exams, with half yearly and yearly exams, surprise quizzes and all those assignments and projects that make you want to bang your head on the wall, we tend to lose track of all the other simpler things that we are capable of, things that we could have been proud of, that can bring one satisfaction. So this time we have made an attempt to bring out the talent concealed within our student community. This issue includes articles, poems, anecdotes, art-works, a host of other things and also a parody. We hope you enjoy reading this issue as much as we have enjoyed making it.

## LEADERSHIP IS A PART OF HOLISTIC GROWTH

My dear friends as a Head Boy of the school I am privileged to percolate the message amongst you all that leadership is one of the integral part of education. ## LEADERS ARE BORN, NOT MADE

A leader is one who knows the way, shows the way and goes the way. With this beautiful thought I Sanvi Sinha head girl of Mount Litera Zee School is going to express my views on this beautiful topic (LEADERS ARE BORN, NOT MADE)

It has been seen that people have done a lot of debate that leaders are actually born or made .Although people have different opinion on different topics. Some people believe that leaders are born while others are contrary opinion After a long time I have concluded that leaders are born not made. Basically I am also the leader of my

school and my work is to guide other to achieve some goals in their life. A leader makes the environment so much joyful that the team member fell involved in the whole process. According to me as per I have learnt the leader must have the drive to push other in situation that are not favorable. He/she motivates all the team members that there will be positive outcomes.

Whenever a child is born people makes guesses that he/she will become a particular thing by their behavior. A leadership journey continues from the schoolyard (As it has started mine). A child is recognized as a leader by their ability on thinking in short period of time . And I give a bucket of thanks to my honorable teacher from the core of my heart. According to me training is very much important in leadership because it trained the person in their entire life.

Last but not least I would advice my juniors and classmates to always be ready for all the challenges in their life.

## Your Goal And Your Achievement

So war is violent  
Peace is Silent  
during war people attack  
while during peace People attack  
Due to war many conflict become huge  
Whereas due to peace many conflict fuse  
the That's why war is violent  
- And Peace is silent

## Happy Sunday

Every day my mother works hard for all of us. She cooks all our meals in the morning and sends us to school with hot tiffins. After we leave, she cleans the house and buys groceries. She also washes all our cloths. When we come home, she feeds us tasty snacks. Then she helps us with our homework. So, one Sunday my father, sister and I gave her a surprise. We told her that she should not work the entire day. My father and I cooked lunch that day. My sister and I finished all her chores as well. She had a good time taking rest and enjoyed her happy Sunday.

## Christmas

It is the festivals of presents  
Somebody gives and somebody sent  
To someone whom he knows  
And also, to someone for shows.  
Present in Christmas everyone like  
One who have personal plane and one have not a bike  
Present could be a pen  
Or could be a gold den.  
Except of presents, we decorate  
A tree whose name is X-mas  
By decorating the tree, we enjoy our Christmas  
In the day as well as in the night  
For the celebration we went to different places and sites  
In the end of Christmas for new year we wait

## Four Golden points

- The plus sign is made with two minus signs! IT means that all negative things can be shaped as positive by our hard work and positive attitude.
- Silence is the fence around wisdom. If your foot slips, you can always regain your balance but, if your tongue slips, you can never recall the words.
- What is the easiest and the most difficult in life? Mistakes! Easy to judge when others do it and difficult to realize when we do it.
- Anybody can love a rose, but it takes a great deal to love a leaf. Don't love someone who is beautiful, love the one who can make your life beautiful.

## Maths, Maths, Maths

Down with old Pythagoras  
And down with rotten maths,  
Down with Archimedes,  
And drown him at the baths.  
If anyone had to do it  
I'd make sure it was me  
First I's wholly immerse him  
Then kick him up a tree.  
When he had been disposed of  
I'd turn on old pythag  
I'd drag him through a holly bush,  
And he'd come out like a rag  
Now my pipe dreams over,  
And I've nothing more to say  
Except that maths still lives on  
To be taught another day.

## WORST THINGS HELPS IN WORST TIME

Back to 2010 when there was no Jio with unlimited plans, rather you have to choose wi-fi or no gaming at all. Those were the days where you have to wait for the more than half an hour to play counter strike :Go. There was no PUBG, Fortnite or Freefire. Those were the days of real gaming and suffering, but still those days were irresistible. So basically there was no such term called gaming addict. But in my case, it was just opposite to my time, I was one of the biggest gaming addict. Gaming ran in my veins. It all changed with a blow a wind called MLZS. It sounds strange how a school can be a part of gamers' saga. School is the biggest hindrance in every gamers' life but in my case, my school became the arena of my gaming life. I explored the potential inside me. In 2018, I joined MLZS MOTIHARI where the students were unaware of Gaming. Students perceived me as an alien from a far off galaxy. It was difficult for me to mingle with friends having no knowledge of PC gaming. I must proudly say that - I brought a revolution in the lives of students and there was an uproar for gaming. In every nook and corner, students started discussing about games and their craziness for it. But still It was not what I really desired I just want be like crowd I don't want to change crowd so I was stuck in this level so I had asked to my heart how I can be the part of crowd? And I got the answer and the answer was influence them in their way don't let them change into your colour. How I can influence them? The answer was as simple as offline games, so the answer I got was everybody is mythical in English and in their communication skills so I should also be a good speaker at least .So I start practicing my English and lexicon and when I got the opportunity it was just thousand level advance than my thoughts I got the opportunity to be captain of school but I know more than a opportunity it was responsibility and I was not ready to take it and when the tide of thoughts were rising in my mind I remembered a call of duty slogan which was "if you can't led your mind you can't lead your team to victory ". Then I thought why I should find fear if everybody is standing with me especially my English teacher. So just captured that opportunity and imagined that this world is my arena I have counter every obstacles in my map and my first obstacle was oath ceremony as a Head Boy. I did it like I was playing assassins creed and this is how I really became the part of this big family. From this journey I learned what you learned in your life is not going to waste rather it is going to help you out one day because "worst things helps in worst time ".

## THE SECRET OF MY JOURNEY

The journey to my national essay competition is like to climb steep hills though I were very poor in English. Whenever I used to write any essay, I got poor marks in it. There were lot of thoughts in my mind but I was unable to express it on a paper. But when I joined MLZS Motihari, I got many opportunity to express my thoughts on paper. Now whenever I see white and blank paper I get a feeling of filling it. And it was like icing on cake when I heard that essay writing competition is going to conduct in my school. I was very eager to participate in it. When I was writing the essay for first time on the topic "**what I learned from Mahatma Gandhi**" I was just confused. But our English teacher has told us that believe in yourself and work hard you will get the result in your side. When result came out, I was just astonished. I got selected. This news was surprising. I was in shock and gleeful also. Now the real game started from there because still I had to fight for the glory of my school in national level and then I got my 2<sup>nd</sup> topic. Fortunately I got selected for national level essay competition. Everyone was praising me for my efforts and I was feeling like I had conquered the whole world. When I got the last topic real nightmare begins from here. My half yearly exam was knocking at my door. So it was the time to choose. It was like if anybody asks you whom you love more father or mother. You just can't choose one of them same case was here I was just confused. I had worked hard for both. After a week result came out and I am glad to tell you I got 2<sup>nd</sup> position at national level. When I heard the result my whole journey passed in front of my life and how MLZS Motihari changed me, who hated writing, to become a winner.

## Teacher's Student's Relationship

I am extremely happy to aware every one that we are going to publish our first Annual school Magazine named "**Udaan**". We need your blessing for the great success of our first endeavour.

School Magazine provides a wonderful platform to the young and promising kids of the school to convey their feelings through different medium of expression which enables them to develop the habit of writing and expression of their imagination

I feel very proud to share my experiences with you through "Udaan" That is **Improving relationship of teachers and students for essential learning**. A student who feels a strong personal connection to the teacher, talks with the teacher frequently, and receives more constructive guidance and praise rather than just criticism from teacher. Improving students' relationships with teachers has important, positive and long-lasting implications for both students' academic and social development.

Teachers and students, "relationship" does not equal "friend," particularly on social media. Many districts have rules against teachers following or friending current students on Facebook, Twitter, or other platforms, in part because it might open teachers to liability if they see inappropriate behavior from students online.

While student feedback is often incorporated into teacher evaluations in higher education, it is rarely a direct part of teacher evaluations. But that doesn't mean districts can't use student feedback to improve teaching practice, and in particular, such feedback can be used to help teachers build deeper relationships with students.

Students spend more than 1,000 hours with their teacher in a typical school year. That's enough time to build a relationship that could ignite a student's lifetime love of learning—and it's enough time for the dynamic to go totally off the rails.

Let's pledge to make the 1000 hours life of the students count, molding in their bright future.

### The system of new education

Teaching and learning for new age required a new model of education. It means interactive and creative education based on individual needs and abilities. The new education strategy also needs freedom in learning and teaching and active mode of learning influences innovative personality development, which creates something unique and turn it into entrepreneurial activity. The need to promote more creativity within the education system has been hot topic for the past few years some teachers in seeking to achieve prescribed targets, which they are pressured to do also curb their creativity avoid talking risks and leading explorations in learning.

but it need not be that way A key issue in my view is being convinced that play and creative has an important role in education, and that professional we have a responsibility to nature these. In modern time competition is rising high to gain power place our best efforts. To develop our excellence we must introduce creative system of education system which identifies our hidden talent

### जिंदगी

जिंदगी के सफर में  
मुश्किलें भी आएंगी ।  
बढ़ते कदम की राहों में  
पत्थर बिछाएंगी ।  
परेशानियों की इस सफर में  
लक्ष्य भी डगमगायेगी ।  
है जो पथ पथरीला भी  
तकलीफें बढ़ाएंगी ।  
हरकतें जमाने वालों की  
उनकी असलियत दिखाएंगी ।  
हौसला की बुलंदियों से  
ये राह भी कट जायेगी ।  
है इरादे कुछ पाने की  
तो मुश्किलें क्या कर पाएंगी ।

जिंदगी के सफर में

### लड़की की बेबसी

क्यों ऐसी जिंदगी मिली,  
जहाँ हमें रुलाया जाता है ।  
बेटी होने का एहसास  
हरदम कराया जाता है ।

लड़की कम बोलती है,  
हमें बताया जाता है ।  
क्यों ऐसी जिंदगी मिली,  
हमें रुलाया जाता है ।

लड़की है तो क्या हमने पाप किया है ?  
हमें भी जन्म माँ-बाप ने दिया है ।  
रब को भी देनी है, हमें एक अर्जी ,  
क्यों नहीं होती हमारी कोई मर्जी ।

क्यों संसार में हमारी कोई कदर नहीं,  
हम भी है इंसान कोई जानवर नहीं ।  
बेटी गाय की तरह होती है,  
माँ हमें यह बताती हैं ,

जिस खूँटे में बांधों  
उसी में बंध जाती हैं ।  
बचपन से हमें यही सिखाया जाता है,  
क्यों ऐसी जिंदगी मिली, जहाँ हमें रुलाया जाता है ।

### Academic Intelligence

Academic intelligence is considered to be the best form of intelligence. A person can have but I think that emotional intelligence wins at life. Emotional intelligence is the most form of intelligence that we really need in life. It tells us how to behave in certain emotional situations, how to put yourself together when you're breaking down, what to do when the world leaves you alone, how to pick yourself up, how to face the world and how to cope with every brick life throws at you and build a castle out of those bricks.

You had win real beautiful and  
Believable at the sometime,  
Sharp, blissful and warm like an old wine  
Somewhat crazy but colourful  
Like a night with north light  
Like the sound of rain and light of thunder,  
Like a costal of dream we used to wonder,  
Somewhere deep inside touching the core  
Like a naughty led always asking for more  
You had met with me in a several ways  
Had shown me rainbow  
through the broken frame  
In the form of larynx and bundle of words,  
Had taught me to pain like a fierce sword,  
We had worked together in a deadly storm,  
Oh! Dear life you had created me and accept my form.

### Culture transmogrified by English

Language is an instrument of expression. English language by itself is not detrimental or having pernicious effect but how it is clutching the youth in its adversaries is to be seen and considered.

English is popularly known as the lingua Franca all over the world. It is the world's second native language.

Despite all the perks it offers, the tables have turned in the arena of Culture affected by the language. Britishers used English as tool to impose their way of thinking, their philosophy and most importantly their culture by gradually denigrating our culture, our philosophy and our national pride. Knowing English language was good but neglecting our languages and our literature made a mindset in India that our past was a dark age with no scientific knowledge and no rationality worth the name.

For a long time now people in India ranging from intellectuals, authors, historians, teachers, parents, students and even aficionados of 'Indian culture' have been worrying about the 'cultural colonization' of India. Various reasons such as a slight colonial hangover (which embedded in our social psyche makes us accept the cultural and intellectual superiority of the west unquestioningly), grave importance of the English language in the job market, etc have led many, specially the youth of the country, at least in metropolitan cities (Delhi, Mumbai, if not Calcutta too), to have a greater command over English than their native languages.

Now this article is not meant to be a rant against the growing influence of English which is killing our culture but it aims to give a suggestion so as to successfully preserve both — the English language for all its economic importance and the Indian culture for all its historical and social significance.

Thus, I urge the readers to soar high in the use of language yet stick to the roots of ethos.

It is possible?  
PAPA = MAMA?

By the concept of pressure (p)  
We have  
Pressure (P)=Force (F)/Area (A)  
or

$P = F/A$   
{force (F)= Mass(M) x Acceleration (A)}  
or  $P = MA/A$   
or  $PA = MA$

 $(PA)^2 = (MA)^2$

### The Aim of Life

Every person can set some target as their aim in life, but the meaning varies from one individual to another. There are two aspects: what you want and how you enjoy achieving it. ### Artificial Intelligence

Since epochs, humans have relied over their intelligence in the execution of their customary toil. With the inception of machine learning, Artificial Intelligence (A.I.) has evolved way beyond the horizon of incomprehensibility. Artificial Intelligence refers to the intelligence of machines. This is in contrast to the natural intelligence of humans and animals. In a nutshell we can conclude - Artificial Intelligence is the simulation of human intelligence by machines. With Artificial Intelligence, machines perform functions such as learning, planning, reasoning and problem-solving. It is probably the fastest-growing development in the World of technology and

innovation. Furthermore, many experts believe AI could solve major challenges and crisis situations. AI has significant use in healthcare. Companies are trying to develop technologies for quick diagnosis. Artificial Intelligence would efficiently operate on patients without human supervision. Such technological surgeries are already taking place. AI can certainly make education more efficient. AI technology can discover the needs of students. Then it can adapt according to their needs. AI tutors provide study help to students. Also, AI can automate grading which results in saving a lot of time. Undoubtedly, A.I. is the imminent future of the world. Experts believe AI would certainly become a part and parcel of human life soon. A.I. for sure, is going to completely change the way we visualize and perceive the world. Perhaps A.I. may supersede human intelligence. What do your intuitions say?

## कविता

जिंदगी एक किताब है जो पढ़ लिया वह पा लिया  
जो न पढ़ा वह ठुकरा दिया  
जो मिल गया वह अपना है जो टूट गया वह एक सपना है  
जो समझ सका वह अच्छा है जो न समझ सका वो बहुत ही बुरा है  
जिंदगी में अच्छे से जी लिया तो अच्छा है अच्छे से न जी सका तो क्या फायदा है  
ये मत सोचो की जिंदगी में कितने पल है ये सोचो की हर पल में कितनी जिंदगी है  
इसलिए जिंदगी को जी भर के जी लो ये ईश्वर का दिया हुआ तौफा है कचरे का डब्बा नहीं

काले काले ।  
बाल को गोरे गोरे गाल को घुस की बातें करने में तनिक भी शर्म न आये वतन के ऐसे

भला समझाये जित बाद मुँह मोड़ लेते है सत्य और ईमान से कभी भय खाता नहीं वोटर रूपी

## (मर्यादा )

किसी शहर में एक बाप बेटा रहा करते थे बेटा का नाम मंगल था मंगल की मां बचपन में ही गुजर चुकी थी मंगल पढ़ने में जरा भी मन नहीं लगता था गंदे बच्चों के साथ खेलता और लड़ाई करता रहता था और ज़िद करके अपनी बात मानवता था । मंगल एक दिन दौड़ता हुआ अपने पिता के पास आया और बोला बाबा मुझे स्कूल की नई ड्रेस चाहिए नये जुटे नये बैग चाहिए कल स्कूल में ड्रेस का कम्पटीशन है रोहित हमेशा प्रथम आता है मुझे भी प्रथम अस्थान पाना है बाबा बोले बेटा जिसके पास ईमान होता है ।

वही इनाम का हकदार होता है तुझ सा नहीं, शाम को मंगल की साड़ी चीजें आ गयी थी मंगल रात में अपने बाबा के साथ बिस्तर में लेटा था कल्पना में खोया था स्कूल में सभी टीचर विद्यार्थी इकट्ठे थे । मंगल सब बच्चों में ज़्यादा चमक रहा था प्रधानाचार्य द्वारा सम्मानित हो रहा था उसे ही इनाम मिल रहा था । बाबा मंगल से कुछ बात करना चाहते थे बाबा मंगल से बोले बेटा ईमानदारी ही मर्यादा का नाम है, मैं इसी पे चला हूँ तेरे दादा नाटक मंडली में काम करते थे । एक बार साधु का रूप बनाकर लम्बे समय तक रह गए दूसरे गांव में चर्चा फैल गई की महीं साधु आये है, वहां के गांव का मालिक उन्हें रहने के लिए घर जमीन भी देने को तैयार था साधु के रूपओ लेने से इंकार कर दिए । मालिक चौक पड़ा और बोला साधु जी मैं आपको सामान में दे रहा हूँ और आप इंकार रहे है । तुम्हारे दादा जी ने बोला मालिक नाटक मंडली में आ रहा हूँ इस वक्त साधु के रूप लोगो को प्रभावित कर रहा हूँ अगर इस रूप में लालच करूंगा तो साधु के मर्यादा का उलघन होगा साधु के प्रति जो सम्मान है वह चली जाएगी

मैं साधु के किरायदार को अच्छी तरह से निभाया इसी लिए मन कार दिया । अपने दादा की बातें सुनकर मंगल बहुत पभावित हुआ और स्कूल जाकर वही कल्पना की उसकी सारी बातें साकार हुई प्रधानाध्यापक सभी विद्यार्थियों को देखते हुए चमकते मंगल को अपने हाथों से चंडी का मेडल पहना दिया मंगल उनका पैर छूते हुए बोला क्षमा करे सर अच्छा ड्रेस अच्छा स्कूल से कोई अच्छा विद्यार्थी नहीं बन जाता ,मुझमे विद्यार्थी के लक्षण नहीं इसे मैं नहीं ले सकता इसका हकदार मैं नहीं रोहित और इसके जैसे बच्चे है मंगल की बातें सुनकर सारे टीचर और विद्यार्थी ताली बजने लगे ,प्रधानाध्यापक जेब से कलम निकल कर मंगल की जेब रख कर बोले की अब तुम्हे तुम्हारी मर्यादा मिला गई है यह देख कर मंगल के बाबा की आखों में खुशी के आँशु आ गए ।
