NURTURING POTENTIAL, UNLEASHING BRILLIANCE.

## Chairman Message

**SANJAY KUMAR GUPTA**  
Chairman

MOUNT LITERA as the name implies in itself "The Mountain of Education" To reach the peak of success. Education is the only key to unlock the unique infinite potential within each child. It is a continuous and step by step process maintaining balance between knowledge, skills and values. This healthy balance lies at the core of all our scholastic and co scholastic planning. The prioritization of discipline and the emphasis on academics provides the skills that 21st Century adults will need and the values and habits that will bring them opportunities for transformational leadership.

The curriculum is based on most advanced methods of teaching methods interdisciplinary project based and research driven. It also incorporates higher order thinking skills, multiple intelligence, technology and multimedia.

We believe in harnessing the individual creativity, curiosity and aesthetic potential of each child. Keeping this in mind the children are nurtured and trained all the while keeping track of individual freedoms in a abuse free environment, driven by always doing what is right for the child. This enables them to survive and thrive in tomorrow's world.

Trust in taking the first step when you do not see the whole staircase. Let us together take the first step to lead our children to the peaks of success.

## Vice Chairman Message

**MRS. RANJEETA GUPTA**  
Vice Chairman

Mrs. Ranjeeta Gupta, want to share this moment of pride and ecstasy with all of you that our students and teachers have given us by working religiously to shape up our dreams. The dreams to make our students organized and well equipped with every possible quality, so that they head forward proudly to pursue their dreams and always remember they were part of Mount Litera Zee School Motihari. Society is getting restructured actualised to meet global, economical and cultural necessities of the newly born world citizens. Education system is a vital need for human survival. It is difficult for a person to sustain his/her life without proper education.

Education doesn't only mean to attain any degree from an institution, but it means to acquire knowledge and skills so that one may lead a comfortable life. Education system of our country should act as a bridge between an individual and the society around them.

Education is to transfer the systematically truncated social outcome of individual's experiences and experiments to the students.

**J. N. PRASAD**  
Director

## Director Message

In the history of mankind the world has not faced such type of epidemic like covid-19 which is paralyzed all the activities of human being. Nearly all the countries of the world have to lock down its all activities during this period including India. The Mount Litera Zee School Motihari is providing education by using modern technology in teaching learning processes during this lockdown period of covid-19 to online education. We realized that the right education is only solution to all the problems of the world icon. I convey my sincere thanks to the principal and staff for this initiative. Education has a fundamental role to play in personal and social development. We do not see education as miracle cure of magic formula opening the door to a world in which ideas will be attend but as one of the principal means available to foster and deeper and more harmonious form of human development and thereby to reduce poverty, exclusion, ignorance, oppression and war. Education begin with birth and continuous as long as life last from the cradle to the grave. Education fails if it does not help the individual to cultivate the hardest of all hard arts- the art of life, Viz the art of self determination inspired and guided by elevated through human values and refined testes.

## Managing Director Message

I am delighted and feeling proud to be a part of Mount Litera Zee School, Motihari family. Every child has its own dreams where they feel like a second home for them that's why we are giving the platform for the students where they can do what they willing to do as per their interest. School is an institution which not just imparts education to the children but also works in making them well versed with the other things too. Whenever I usually reach in school I always see the charming and smiling faces of my lovable mount literans that makes me feel happy and suddenly I used to smile to see them my team always work for the children to build their future to make them unique from others. My lovable mount literans can achieve any goal and can break the toughest boundaries in their life I proudly say that mount litera family is always known for its unity hard work and dedication. Here we nourish the children to be a good human being first, their overall enhancement and developing their thinking skills. A school is not just a building made of cement and bricks but is actually the place where children grow into mature individuals. The best feature of this school is that it values the opinion of each and every student. We always working with our three Cs strategy that is Coordination, Cooperation and Collaboration. At last I wish my mount litera family will create history in smart education field and be united as we are now lots of love for my lovable mount literans.

Best Wishes with Regards

Shubham Gupta  
Managing Director

### CONCEIVE BELIEVE & ACHIEVE

"Count the garden by the flowers, never by the leaves that fall. Count your life with smiles and not the tears that roll." A positive attitude is essential to happiness, joy, and progress in life. This state of mind brings light, hope, and enthusiasm into the lives of those who possess it and adopt it in their lives, but that does not mean that everything will always move smoothly and there will be no bumps in the road. However, it ensures that any setback you might encounter will not stop you or change your state of mind and that you will go on, try again, and do your best despite any setback. Remember, happiness and sorrow are the by-products of your action. Thus, being happy is a choice! On behalf of everyone at Mount Litera Zee School, Motihari, I welcome you to the MLZS website, a school where we, as staff, students, and the MLZS community, share a strong sense of responsibility and pride. To be in a healthy state of mind, one should be creative and imaginative, as there is a direct link between creativity and better mental health. A creative child is less anxious, more resilient, and better equipped to solve problems in the face of hardship. We dedicate this coveted honour to all our students for displaying exceptional hard work in the pursuit of excellence by achieving honours and distinctions not only in academics but also in the allied areas of arts, creativity, sports, and debate. The blend of advanced technology with information technology is an integral part of the teaching-learning process to make it more effective, interactive, and interesting. The school is committed to promoting English as a foreign language with all its essential components to build language confidence in our children. We nurture and develop a child in a 'school culture' that fosters values like self-discipline, patience, forgiveness, honesty, caring, and tolerance. Our objective is to prepare our children and staff in such a way that they become self-sufficient, confident, hopeful, and innovative. Our school is striving hard to create imagination and creativity skills amongst our staff and students. It is truly said by a Chinese teacher and philosopher..."Education breeds confidence. Confidence breeds hope. Hope breeds peace." - Confucius By ensuring discipline to provide a conducive learning environment to achieve academic excellence towards holistic development so that we can create responsible future citizens, I am committed to the young learners of this institution. I request all parents to cooperate wholeheartedly. The school always appreciates your support and valuable suggestions so that the students can be guided along the right path at all times. We shall seek your active cooperation in the development of the children, as they are an asset to the institution. Let us walk hand in hand on a voluminous journey of transformation. So, we invite you to visit us for a fair judgement. It would be our pleasure to welcome you. I wish you the very best.

## Principal Message

### OUR BELIEF SYSTEM

#### **Children are not just Roll Numbers, they are unique individuals.**

Each child has a unique brain network that shapes how he/she absorbs and response to stimuli. One way of teaching does not work for every child. We need to teach they way they learn, not force them to learn the way we teach.

#### **Every child is talented. Schools just need to figure where that talent lies.**

Schooling is a time when the child discovers what he/she is good at. We should not make it an experience of finding out whether he/she is may good.

#### **A School's role is to develop whole individual, not just complete the syllabus.**

School is not an assembly line of syllabus and exams. Schools help children make meaning of life and develop the muscle to lead life effectively. For this, schools have to expand beyond academics to include life skills, values and habits.

#### **Holistic development needs partnership between School and Parents.**

School need to enroll and educate parents so that the child gets seamless environment between school and home, which is conducive to his/her development.

#### **School need and integrated approach centred on the child.**

School need to begin with a vision of the child they aim to graduate and then designs everything around that vision. Building design, pedagogy, teachers, curriculum content, activities and examinations - all need to be integrated to achieve this vision.

### ABOUT ZEE SCHOOLS

Mount Litera Zee School is an endeavor by the Essel Group led by Sri Subhash Chandra to prepare leaders of the 21st Century through its education arm, Zee Learn Limited.

Brain Science and Human Development Research confirms that school years play a defining role in our "Sense of Self" and our "View of Life". To fulfill our vision of improving human capital of India, it is imperative that we bring innovation in schooling. Mount Litera Zee School has been our endeavor in this direction.

### ABOUT MOUNT LITERA ZEE SCHOOL MOTIHARI Campus

Zee School is situated on Motihari Dhaka highway. The well-secured lush green campus provides the most suitable environment for concentration, growth and development. School has an impressive and pollution-free campus with panoramic green surroundings, elegant landscaping and beautiful flowerbeds. The campus has a great balance between sports and academics. It has a well setup for all major sports and other physical activities for physical growth of a child. Also, it has a great setup for academic growth of a child.

The location of a campus is the biggest advantage as it takes you away from the chaotic city life which help not only children but also teachers to perform well and give their hundred percent.

## SMART CLASS ROOMS

SMART Classroom offers collaborative learning components for both teachers and students, and it helps you engage students with interactive content. Smart classrooms is equipped with computer and audiovisual equipment, allowing the teacher to teach using a wide variety of media. Smart class is equipped with a Windows 10 Enabled computer, IWB Board (Interactive White Board) and LCD Projector. (First School in Motihari to introduce IWB.)

## COMPUTER CENTER

The school has a full- fledged computer center with strong Internet access. Each computer is installed with genuine copy of software that is required for the study. The computer center is designed in such a way that each and every student has an individual computer to work on.

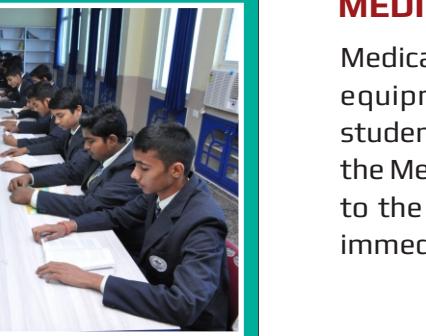

## Art & Craft Room

Arts and crafts teach children to learn in different ways and approach problems and challenges creatively. That is the reason Zee School has a dedicated Art and Craft room. Activities in art and craft room helps a child to push up his creativity and think something new.

## LIBRARY

Library provides a quiet study space for students on campus. Children's libraries are special collections of books intended for juvenile readers. They library has approx 1500 books which comprises fictions, Historical, Adventurous, Encyclopedias, Mythological books etc.
